

Model: SL52xA

Dimensions

Diameter: 30mm
 Cut-out: 25mm
 Height 16mm

Cable Lengths - 150mm

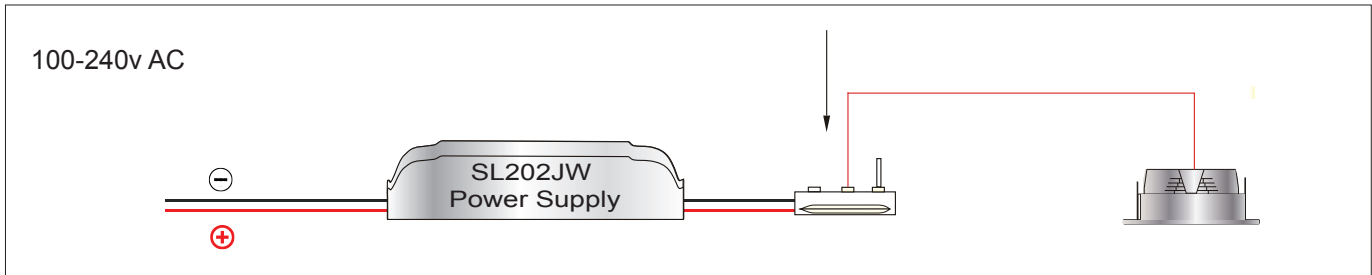

Step 1. Turn Main Power Supply Off

Cut out circular holes 25mm diameter, and feed the SL52xA into the holes. Wing clips will hold the fitting in place. Attach the connector to a chosen socket in the SL202JW or SC04.

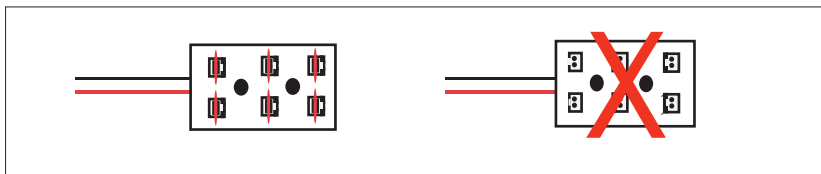

NOTE: Maximum 8 x SL52xA per SL202JW driver.

Step 2. Wire to Diagram only.

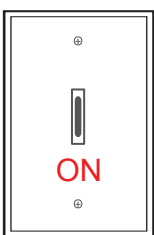

SL202JW Powers up to 8w SL52xA fittings using up to 6 ports (use 1 x SC04 for extra ports)

Step 3. Make sure there are no free terminals.

Step 4. Turn on Main Power Supply

NOT DIMMABLE
